

Dear Customer, Dear Partner,

On the Drinktec 2017, from September 11th to 15th in Munich you will find us at Hall C1, booth 442.

Maybe, this could be far away from the halls that are of most interest to you.

Therefore, this time we would like to expressly and personally invite you to visit our booth.

And we wish to thank and reward you for your effort. As token of our respect and gratitude, we would be pleased offering you a useful present when you pass by.

Of course, our booth is worth visiting anyhow, because we will showcase our newest liquid nitrogen dosers. Together with value adding peripheral equipment that will improve the operational comfort of our dosing systems.

We will also exhibit our new SERVODOSER with unique technical features, unrivalled by any other liquid nitrogen doser on the market. SERVODOSER sets new standards in the field of :

- dosing precision
- individual dosing speed
- maintenance intervals
- reliability, flexibility and control
- warranty period
- liquid nitrogen consumption

Because we would like to have a good estimation of the number of presents we need to bring to the exhibition, we would be very grateful if you could inform us of your intention to visit our booth by filling in this invitation letter. Of course, feel free to mail, to write or to call us. Thus, we can make a reservation for you.

We look forward to receive you on our booth during the Drinktec, and we remain at your disposal for all further information.

Kind regards.

Pol Herman
